

TROOP LEADER RESOURCES SITE

There are currently 134 Scouting U videos on the Troop Leader Resources website. We have just completed the process of creating edited versions containing updated logos, updated text, and in many instances featuring new footage of female Scouts.

We have completed the same process to update 24 vignettes that were previously embedded in the Program Features section of the website, where currently there are only blank spaces.

Included in the library are reworked composite videos for The Patrol Leaders' Council and the Program Features Introduction. Also included in corresponding sections of the library are seven activity videos, all starring female troops, which were part of the authorized production to more evenly present female Scouts.

In order to streamline the process of updating any or all videos on the Troop Leader Resources website, we have organized all the newly-updated videos in lists, coupled with the specific web addresses where they currently appear on the site. <https://promtaskforce.com/scouting-org-related-material/>

You'll see the information is divided into two columns: "WEBSITE ADDRESS" and "UPDATED VIDEOS." All listings for newly updated videos link to specific YouTube playlists.

Surely, the process of replacing the outdated videos with the updated versions is itself a time consuming project. Therefore, to help assure these video resources are made available in a timely manner, we are able to lend a hand or even complete the entire procedure as part of a joint operation.
